

Your Data

Terrestrial Site

Thank you for participating in the ABMI's Core Monitoring Program. Below is a list of species identified at the ABMI's terrestrial (land) biodiversity site which fell entirely or partially on your land.

Birds

Alder Flycatcher

American Bittern

American Coot

American Crow

American Goldfinch

American Redstart

American Robin

American Tree Sparrow

Baltimore Oriole

Black Tern

Black-billed Magpie

Black-capped Chickadee

Blackpoll Warbler

Blue Jay

Boreal Chorus Frog

Brown-headed Cowbird

Canada Goose

Cape May Warbler

Cedar Waxwing

Clay-colored Sparrow

Your Data

Terrestrial Site

Common Loon

Common Raven

Common Yellowthroat

Domestic Chicken

Domestic Cow

Downy Woodpecker

Eastern Kingbird

European Starling

Franklin's Gull

Gadwall

Gray Catbird

Green-winged Teal

Hermit Thrush

Horned Lark

House Sparrow

House Wren

Killdeer

Le Conte's Sparrow

Lincoln's Sparrow

Mallard

Mourning Warbler

Nelson's Sparrow

Northern Flicker

Northern Waterthrush

Ovenbird

Philadelphia Vireo

Your Data

Terrestrial Site

Pied-billed Grebe

Pileated Woodpecker

Pine Siskin

Red-eyed Vireo

Red-winged Blackbird

Rose-breasted Grosbeak

Ruby-crowned Kinglet

Ruffed Grouse

Savannah Sparrow

Sharp-tailed Grouse

Snow Bunting

Solitary Sandpiper

Song Sparrow

Sora

Swainson's Hawk

Tennessee Warbler

Tree Swallow

Vesper Sparrow

Warbling Vireo

Western Meadowlark

White-throated Sparrow

Wilson's Snipe

Wood Frog

Yellow Warbler

Yellow-headed Blackbird

Terrestrial Site

Plants

Marsh Hedge Nettle

Beaked Willow

Kentucky Bluegrass

Wild Red Raspberry

Red Clover

Red Osier Dogwood

Arrow Leaved Coltsfoot

Bluejoint Reed Grass

Prickly Rose

Wild Vetch

Trembling Aspen

Northern Bedstraw

Common Yarrow

Common Dandelion

Snowberry

Alfalfa

Wild Lily Of The Valley

Woodland Strawberry

Alsike Clover

Balsam Poplar

Absinthe Wormwood

Quack Grass

Smooth Fleabane

Yellow Avens

Your Data

Terrestrial Site

Awnless Brome

Saskatoon

Veiny Meadow Rue

Timothy

Agrimony

Common Plantain

Night Flowering Catchfly

Awned Sedge

Showy Aster

Smooth Aster

Early Blue Violet

Annual Hawk's Beard

Purple Stemmed Aster

Fowl Bluegrass

Marsh Skullcap

Rough Cinquefoil

Littleleaf Pussytoes

Water Smartweed

Stinkweed

Fly Honeysuckle

Northern Gooseberry

Common Nettle

Mountain Ash

Beaked Hazelnut

Cow Parsnip

Your Data

Terrestrial Site

Canada Anemone

Bracted Honeysuckle

Wild Sarsaparilla

Cream Colored Vetchling

Golden Sedge

Caraway

Western Dock

Northern Bastard Toadflax

Animals we captured photos of on the camera traps:

Coyote

Deer

Domestic Cow

Domestic Dog

Fisher

Magpie

Mule deer

Porcupine

Red fox

Red Squirrel

Snowshoe Hare

Songbird

Your Data

Terrestrial Site

White-tailed Deer

Soil Description

Average Organic Depth (cm): 1.10

% Soil Organic Matter: 6.50

Average Soil pH: 6.12

Number of Beetle Mites Found: 6

See the Soil Information Sheet to learn how these soil qualities contribute to soil productivity
